

NEXT LEVEL ANTI-THEFT

A NEW UNIQUE DRIVE, HIGH TORQUE TAMPER-RESISTANT FASTENER

Tanner Bolt & Nut Inc. of Brooklyn, NY is pleased to announce an agreement has been reached with Parker Fasteners of Buckeye, AZ to become the Exclusive Master Distributor in the United States for its Lock-Out® Maximum Security Screws.

Lock-Out® is a new and innovative security fastener featuring a unique patented drive that is engineered to perform in high torque applications. The distinctive oval center pin and multiple drive/key combinations give customers the option to select higher levels of security in a tamper-proof fastener. Installation bits are not sold commercially. Installation bits will only be sold through Tanner.

Lock-Out® is available in a multitude of head styles, threads, diameters, lengths, materials, and finishes. Diameters range from 1/4"-5/8", M1.4-M16, and #0-#10, with lengths up to 12" for certain diameters. Materials available include carbon steel, stainless steel 302HQ, 304, 316, A286 & brass alloy steel 4037, 8740.
