

# REMINGTON®

**YOU'VE WIPED DOWN EVERY SURFACE.  
NOW DO THE SAME TO YOUR AIR.**

**Introducing the Remington Airetrex 365 Air Sanitizer — UV-C light technology and advanced circulation to keep the air in your workspace for worry-free living.**

We're all more aware than ever of the threat of pathogens in any environment. The moment you plug in the Airetrex 365, **you and your co-workers will feel better** as it quietly goes to work neutralizing bacteria, germs, allergens, viruses and yes, worry.

Here's what makes the the Remington Airetrex 365 Air Sanitizer so effective: It all starts with an intense UV-C light. Add to this a unique reflective metal interior to further increase the light's intensity and dwell time, and you have a combination that effectively destroys allergens, bacteria, germs and viruses. In addition, through the use of a charcoal filter, the Airetrex 365 circulates air more quickly, keeping any space sanitized for you and your co-workers. And it does all of this while running quietly and without emitting any harmful chemicals.

**UV-C LIGHT TO FIGHT VIRUSES AND BACTERIA**

Effective in destroying airborne bacteria, germs, allergens and viruses by using UV-C light similar to hospital sanitization technology.

**HIGH VOLUME AIR FLOW**

The Airetrex 365 has a high velocity fan and uses a charcoal filter to maximize air circulation. Airetrex 365 exchanges the air multiple times every hour.

**PEACE-OF-MIND**

Simple. Effective. Quiet. Efficient. Low-maintenance. Using the energy of a 40-watt bulb, the Airetrex 365 works quietly in the background all day long, taking pathogens out of the air without taking up your time.

**PRODUCT SPECS**

Model	REM-7365UV-120
Package Size	14in x 13in x 18in
Shipping Weight	14lbs
UPC	657888207009
Certification	ETL
Voltage	120V / 60Hz
Amperage	.38 Amps
Wattage	35 W
Bulb Type	UV-C
Wavelength	254nm
UV Output	5W
dBA	(<60)
Replacement Bulb	REM-UVBULB-106A

**AIR EXCHANGE SPECIFICATIONS**

ROOM	SQ. FT.	AIR EXCHANGE
Private Office	100 ft. <sup>2</sup>	5 ¾ times per hour
Conference Room	120 ft. <sup>2</sup>	4 ¾ times per hour
Waiting/Reception Area	190 ft. <sup>2</sup>	3 times per hour
