

METALDEVIL®

ALUMINUM | THIN ALUMINUM | NON-FERROUS

The fourth generation of Morse Metal Devil circular saw blades sets a new precedent for performance. Metal Devil aluminum, thin aluminum, and non-ferrous cutting blades feature a polished surface and optimized design that creates a faster, smoother cut, with the longest blade life on the market. Get unrivaled blade life and quality results in every cut.

Aluminum/Non-Ferrous blades are **25% QUIETER** than our previous Metal Devil blades*

HANDFED ALUMINUM/NON-FERROUS

(5 $\frac{3}{8}$ " | 5 $\frac{7}{8}$ " | 6 $\frac{1}{2}$ " | 7 $\frac{1}{4}$ " | 8" | 9")

- ▼ Premium grade blade has an enhanced face bevel geometry for a smoother surface finish
- ▼ Thin kerf blade cuts faster and lasts longer
- ▼ Uses less battery power in cordless saws
- ▼ Lower tooth count reduces gullet clogging

153%
LONGER BLADE LIFE
than top competitor
in 80/20*

48%
LONGER BLADE LIFE
than top competitor
in aluminum plate*

CHOP SAWS (10" | 12" | 14") ALUMINUM/NON-FERROUS

- ▼ Thin kerf, positive rake blade delivers a faster, cooler cut with a burr-free finish
- ▼ Premium grade carbide extends blade life and wear resistance
- ▼ Blade body stabilizers reduce noise and vibration for a smoother edge with better surface finish and less rework

**LESS BURR,
VIRTUALLY
NO REWORK**

CHOP SAWS (10" | 12" | 14") THIN ALUMINUM/NON-FERROUS

- ▼ High tooth count and positive rake blade for faster cuts in thin, non-ferrous workpieces or when working on high RPM saws
- ▼ Enhanced tooth geometry reduces burr and virtually eliminates rework
- ▼ Premium grade carbide for unmatched blade life and wear resistance
- ▼ Blade body stabilizers reduce noise and vibration for better surface finish

PERFORMS WELL
on high RPM
miter saws as well
as low RPM metal
cutting saws

FEATURES

Fast - A thin kerf, positive rake blade allows for optimal cutting speed

Smooth - Blade body stabilizers reduce vibration and improve surface finish

Durable - Premium blade materials and design provide unmatched blade life

Versatile - Optimized tooth counts tackle thin non-ferrous workpieces and work effectively on high RPM saws

APPLICATIONS

- ▼ Aluminum
- ▼ Lead
- ▼ Thin aluminum+
- ▼ Zinc
- ▼ Copper

*Up to $\frac{1}{2}$ " thick aluminum for 10" and 12" chop saw blades; up to $\frac{1}{4}$ " thick for 14" chop saw blades

*Based on internal testing
